

What plans  
do you have  
to make your  
business  
better?

  
atticus financial group

# Atticus Financial Group helps businesses – like yours – get much-needed equipment to keep on growing and prospering

Atticus Financial Group provides equipment leasing and auto leasing services – for all brands of new and used cars, trucks, and business or industrial equipment. We serve a wide variety of clients across Canada.

We can help you get the equipment your business needs. Vehicles, office equipment, software. Or, other equipment for medical offices, agriculture, factories, warehouses, machine and mechanical shops, to name a few.

And, you can be sure you will enjoy the best leasing plans and rates available.

## Lease financing in four easy steps

Getting a lease shouldn't be a hassle. You shouldn't have to jump through frustrating hoops or wait for days to hear back about your application. We're interested in learning a few basic things about your business and how the equipment will help, but keeping the process simple and fast is just as important. Our goal is to get a "YES!" to your request in just four easy steps.

## Why do people lease equipment for their business?

There are many reasons why leasing is a popular financing tool. Imagine you needed a new piece of equipment to make your business more profitable. Leasing through Atticus would let you:

- Keep your cash, instead of tying it up in a depreciating asset
- Be less reliant on your bank – and save your line of credit for emergencies or critical opportunities
- Get what you need quickly, with a fast, easy application process
- Enjoy tax advantages for most leases
- Start profiting from your new equipment right away – and watch it pay for itself!
- Enjoy amazing flexibility in how your lease payments are structured.

## What makes Atticus different?

Many leasing companies specialize in either vehicles or equipment or may even be limited to specific types of equipment. And, many won't even touch leases for unusual items, such as software or environmental equipment as examples.

But Atticus specializes in helping clients lease whatever they need. We are also independent. That means we go to whichever funders provide the best lease structure for our clients. We are fast, easy to work with – and we are committed to providing excellent customer service.

All most lenders want to see are your balance sheet and credit history. Atticus is different. We look behind the scenes for the compelling reasons why your particular business deserves a lender's trust. By building a case for your company – by showing how your business works, its goals, and how a lease will add to your success – we give our lenders a good reason to finance your company at the most attractive rates they offer.

# Equipment Leasing

Leasing is a great tool that you can use to get the equipment you need to grow your business. Instead of paying cash or using up your bank lines, you can lease it.

We have a variety of leasing programs available for these and other types of new and used equipment:

- Office equipment
- Manufacturing equipment
- Industrial equipment
- Automotive service equipment
- Commercial equipment
- Construction & heavy equipment
- Agricultural equipment
- Medical/dental equipment
- Telecommunications equipment
- Materials handling equipment
- Landscaping equipment
- Production & packaging equipment
- Transportation equipment

Atticus Financial Group has the knowledge and experience to answer all your leasing questions and help you decide if leasing is right for you.

# What clients say about us

## **At Atticus, they ask great questions – and they listen...**

"They make it simple. They really take care of everything! I would describe Atticus and the team as knowledgeable, reliable, trustworthy and professional in every sense of the word. I have no problem recommending the Atticus Financial Group."

- Mike Day | *Brushworks Advertising Inc.*

## **Simplifying the leasing process...**

"Regardless of who I deal with [at Atticus], they are all knowledgeable, customer-friendly and very accessible when I need them. One of the things I love most is the wonderful job they do of simplifying the leasing process. Everything is laid out step by step. They make it easy and straightforward."

- Charlene Tisdelle | *Pinnacle Environmental*

## **Less than one hour to get a better auto lease deal!**

"I have been working with... Atticus for the past 10 years. They are awesome. I would not go anywhere else. With [auto dealerships], the process is painful. It takes an entire day with endless negotiations, time-wasting, checking with the manager, and so on. With Atticus, it takes less than an hour – and I get a better deal! If you are looking for a company who knows what they are doing, a company who will save you time, money, and will put you first – you have to see Atticus."

- Larry Bloom | *Medico Supplies Inc.*

## **We just keep on being impressed...**

"Atticus Financial has been our leasing partner for several years. We continue to be impressed with their competitive rates, outstanding levels of customer service, integrity and professionalism. We have found Atticus Financial to be a solid funding partner for our company – and, with their help, we look forward to expanding our fleets long into the future."

- Doug Bock | *Ecofab*
